

## Connect to Rubeuc VPN

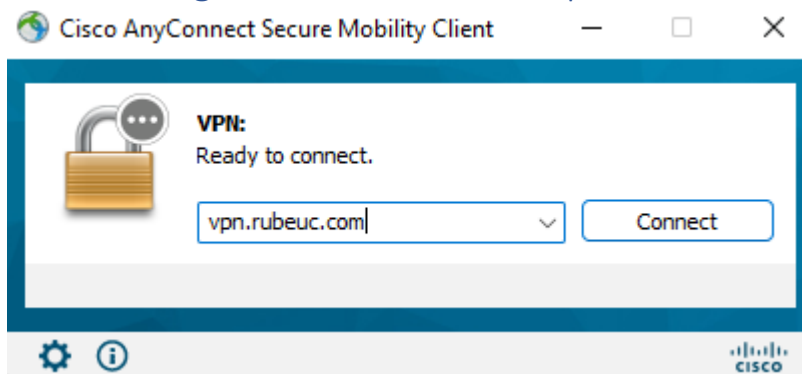

This document describes how to connect to the Rubeuc VPN endpoint to gain access to the internal systems.

### 1. Install Cisco Anyconnect software

Download the latest Cisco Anyconnect software from

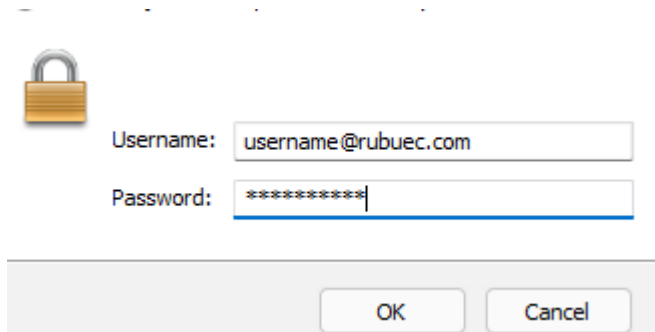

<https://www.cisco.com/c/en/us/support/security/anyconnect-secure-mobility-client-v4-x/model.html#~tab-downloads>

### 2. Configure Rubeuc VPN endpoint

### 3. Login with your personal username and password

Username format: emailaddress ([username@rubeuc.com](mailto:username@rubeuc.com))

### 4. You are now connected to the internal network
